

School District Aid, Property Tax Levy, and "Grand Total" Revenue in Inflation-Adjusted Dollars Per Pupil in FY 2003 and FY 2007

The *Price of Government* (POG) report from the Minnesota Department of Finance is the most inclusive source of FY 2007 revenue information for school districts currently available. However, the POG report does not contain district-specific information. The following information for individual Minnesota school districts is based on "grand total" revenue from the Minnesota Department of Education. While this measure of revenue does exclude some categories of revenue, it is the most comprehensive measure of revenue available on a district-specific basis through FY 2007. FY 2007 "grand total" revenue amounts are projected by the Department of Education based on the most recent state forecast.

"Grand total revenue" consists of the following categories of school revenue: general education revenue, special education revenue, career technical revenue, integration revenue, alternative facilities revenue, and miscellaneous levies. The aid and levy components of these revenues were determined as follows:

- General education revenue was divided into aid and levy components based upon information from the Department of Education.
- Special education revenue is entirely state aid.
- Career technical revenue is entirely levy.
- In FY 2003, 63 percent of integration revenue was state aid and 37 percent was levy. In FY 2007, 70 percent of integration revenue was state aid and 30 percent was levy. The exception to this rule is the Minneapolis school district, where state aid is reduced by \$35 per pupil (decreasing the aid share to 59 percent in FY 2003 and 66% in FY 2007) and levy is increased by \$35 per pupil (increasing the levy share to 41 percent in FY 2003 and 34 percent in FY 2007).
- The aid share of alternative facilities revenue was provided by the House Research Department. The remainder of alternative facilities revenue is levy.
- Miscellaneous levies are entirely levy.

FY 2003 is the first year of the state takeover of general education funding. Thus, this table examines changes in school finances since the general education takeover to the present. The inflation index used to convert all amounts to constant FY 2007 dollars is the Implicit Price Deflator (IPD) for state and local government purchases, which is the inflation index for school districts designated in the "Truth-in-Taxation" law. This table contains information for 341 of the 343 Minnesota school districts. Information for two school districts (Chokio-Alberta and Prinsburg) is not included because of data problems. Districts are sorted based on the district code number.

School Dist. Code	School District Name	FY 2003 Per Pupil in Constant FY 2007 Dollars			FY 2007 Per Pupil in Constant FY 2007 Dollars			Change from FY 2003 to 2007 in Constant FY 2007 Dollars
